About us

We are a world-class group of companies that offer services focused on Foreign Trade and Logistics:

- ✔ Customs Broker Clearance.
- ✔ Logistics (sea, air and land).
- ✔ Warehousing (local and international).
- ✔ Worldwide coverage (WCA).

Abuin Almeida Corp comprises companies committed to providing efficient solutions designed to meet the particular needs of our clients, responsibly adding value to the supply of quality services.

The **Customs Agency** is a leading company that supports its clients in the release of foreign trade goods from the Mexican Customs. It operates at the ports of Manzanillo, Lazaro Cárdenas, Veracruz, Altamira, International Airports of Mexico City, and Felipe Angeles. As well as, at the most important border crossing in the commercial exchange between Mexico and the United States, Nuevo Laredo Tamaulipas.

AB Logistics Mexico AB Logistics Mexico is a logistics services company, focused on facilitating the transportation and storage of goods.

It has global coverage thanks to the support of the **WCA (World Cargo Alliance)** of which we are an active member.

Located in the United States of America, at the most important border crossing between Mexico and the United States, **ABA Logistics** is a company with extensive experience in storage, transportation, American customs clearance, and cross-docking.

To our clients.

The commercial opening of the Mexican market, incentivized by various free trade agreements, increased the need for specialized logistics and foreign trade services, a segment where **Abuin Almeida Corp.**, has its own offices and collaborators with knowledge and experience in the public and private sectors, providing support to our clients for the regulatory compliance of their operations.

Having the right technology for the entire supply chain and understanding its process allows us to evaluate it, as well as cost performance to offer more efficient solutions at competitive prices.

Customs clearance.

- 1 **Abuin Almeida Corp.**, Grupo Abuin Almeida offers guidance and advice on import and export operations, to ensure regulatory compliance, facilitating passage through customs.
- 2 Offers customs clearance with ATA notebooks and in the case of certified companies, merchandise clearance in the hands of the air passenger.
- 3 Likewise, it provides tools for the tracking and traceability of customs clearance.

International logistics.

- 1 **Abuin Almeida Corp** manages the transportation of products and supplies via air, sea, land, rail, and multimodal means in an integral and reliable way.
- 2 Supported by an extensive network of agents, it provides complementary services to transportation, storage, custody, and commercial insurance.
- 3 Develops projects for companies with Just In Time (JIT) & Just in case (JIC) production schemes.

Warehousing.

- 1 **Abuin Almeida Corp** offers storage services, prior inspection for dispatch, consolidation or deconsolidation of merchandise.
- 2 It offers the service for activities complementary to customs clearance, in Official Mexican Standard Verification Units of Commercial Information (UVA).

Infrastructure.

In the port of Veracruz.

- 1 We have a Bonded Warehouse with an area of 11 hectares for the handling of **LCL and FCL cargo**. We receive foreign trade goods as long as they are destined for customs to be imported or exported.
- 2 We also offer the specialized refrigeration service for foreign trade, with a total area of 18,200 m² to store **refrigerated containers and a warehouse** of 2,500 m² with 5 cold rooms with positive and negative temperature control of -25°C.
- 3 Within this warehouse operates a **Phytosanitary and Zoosanitary Inspection Point**. This allows maintaining the cold chain when personnel from the Ministry of Agriculture and Rural Development carries out their inspection duties, to verify that the goods comply with the sanitary requirements for their importation into Mexico.

Global presence.

Abuin Almeida Corp has developed projects around the world, where the logistic process is analyzed so that our clients have the best conditions to meet the demand of their market or production plant.

Our success stories are located almost everywhere in the world:

Gather.

Our strategic alliances allow us to identify suppliers in different parts of the world.

Distribution.

Strategic location of our warehouses (internal and external), ideal for distribution or safekeeping of products.

Integrated operations.

Through our specialized areas, **Grupo Abuin Almeida** coordinates with suppliers and clients every stage of the logistic process, sending automatic and/or personalized reports on the progress and development of their cargo.

Procedures and systems supporting operation and customer service are constantly reviewed, incorporating tools that seek to satisfy the needs for monitoring and information.

Nearshoring

The COVID-19 pandemic generated a crisis in global production chains. As a result, the phenomenon called Nearshoring emerged, which seeks the relocation of factories to help global production chains. These are classified into 3 major global regions: Europe, Asia, and North America, with Mexico being part of the latter.

Abuin Almeida Corp., aware of the challenges and opportunities in terms of investment and product exchange that Nearshoring will bring to Mexico, offers specialized logistics and foreign trade teams to advise and assist companies with their operations in terms of movement and storage of goods, import or export requirements, and release of shipments from Mexican customs.
